PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate specializing in Artificial Intelligence & Machine Learning with a strong foundation in AI tools, Programming, Data Structures & Algorithms, and Mathematics. Passionate about designing intelligent systems that solve real-world problems and eager to apply my knowledge to real-world challenges and contribute to innovative solutions in the field of AI. Experienced in developing AI applications using Python with a commitment to continuous learning and building innovative, scalable solutions. Seeking opportunities to contribute to AI research, software engineering, and impactful technology development.

EDUCATION

I.K. Gujral Punjab Technical University

Bachelor of Technology in Computer Science Engineering (Artificial Intelligence & Machine Learning)

Expected Graduation: 2028 | Current CGPA: 8.0/10

Bihar School Examination Board

Class XII – 72%

Class X – 82%

TECHNICAL SKILLS

Programming: Python, C/C++, HTML, CSS, JavaScript

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow

Tools: Git/GitHub, VS Code, Streamlit

Core CS: Data Structures & Algorithms; Object-Oriented Programming

EXPERIENCE

AI/ML Virtual Intern – Google AI/ML Virtual Internship (July 2025 – September 2025)

- Completed hands-on training in Artificial Intelligence and Machine Learning.
- Applied Python and Machine Learning concepts to practical assignments.
- Gained practical experience in data preprocessing, model development, and AI problem-solving.

PROJECTS

AI Resume Screening System (Python, Streamlit, NLP, Scikit-learn, Pandas, PDFPlumber, spaCy)

- Developed an AI-powered resume screening application that analyzes resumes against job descriptions and generates an ATS-style match score using NLP techniques.
- GitHub: github.com/Aniketkr09/AI-Resume-Screening-System

Sentiment Analysis System (Python, Pandas, Scikit-learn, Streamlit)

- Built an NLP-based web application that classifies text as Positive, Negative, or Neutral using TF-IDF vectorization and an SVM classifier.
- GitHub: github.com/Aniketkr09/Sentiment-Analysis
